### The special issue for “Intuitionistic Fuzzy Sets”

Special issue on “Intuitionistic Fuzzy Sets and their Applications” KRASSIMIR ATANASSOV	i
On the two most extended modal types of operators defined over interval-valued intuitionistic fuzzy sets KRASSIMIR ATANASSOV	1–12
Application of weighted average cardinality measure of intuitionistic fuzzy sets in ranking of intuitionistic fuzzy sets MADIHA QAYYUM, ATIQ UR REHMAN, ETIENNE E KERRE AND SAMINA ASHRAF	13–31
Continuities and neighborhood structures in intuitionistic fuzzy smooth topological spaces S. R. KIM, P. K. LIM, J. KIM, K. HUR	33–54
Level graphs of intuitionistic fuzzy graphs MUHAMMAD AKRAM	55–70
New transitivity property of intuitionistic fuzzy multiplicative preference relation and its application in missing value estimation MAMATA SAHU, ANJANA GUPTA	71–86
On intuitionistic L-fuzzy prime submodules P. K. SHARMA, KANCHAN	87–97
An approach for decision making using intuitionistic trapezoidal fuzzy soft set S. DAS, M. B. KAR, S. KAR, T. PAL	99–116
Intuitionistic fuzzy modal operators in intelligent system for pesticide and fertilization GÖKHAN ÇUVALCIOĞLU, SINEM TARSUSLU (YILMAZ), ARIF BAL, GIZEM ARTUN	117–132
Ordinary intuitionistic fuzzy smooth topological spaces J. KIM, J. G. LEE, P. K. LIM, K. HUR	133–155
